

As educators, mentors, advocates, and neighbors, **Youth Transformed for Life** creates bridges for children and families to overcome current disparities. By meeting community members where they are, physically and emotionally, we earn their trust and offer tools they can choose to employ as they work toward prosperity. YTL provides an after school program, assisting students with their schoolwork. We also accommodate about 45 children (ages 7-17) in our summer camp. In addition we have a school based-facilitator that advocates for families as an interface with school administration and attending IEP meetings to support parents in getting their children's needs met. This facilitator has a 15 student caseload and works in several different schools. Due to Covid-19, YTL created an online assistance program serving 40 students on Monday-Friday from 7:30am to 5:00 pm. YTL welcomes volunteers such as tutors, retired teachers or those with a special life skill or talent to teach. To volunteer contact Parris Finley at [Pfinley.ytltraining@gmail.com](mailto:Pfinley.ytltraining@gmail.com).
